

## Home Inventory Checklist

WHAT? A home inventory is a list of everything valuable you own.

**WHY?** An inventory of your valuable items will help determine how much coverage you need. Just as importantly, it will speed up the claims process and help you get every penny you're covered for in the event of a loss.

**WHAT should I list?** Record as much information about each item as possible. In addition to a written inventory, keep a visual record of your possessions to show proof of ownership. This can be accomplished with a video walk-through of your home or through photographs.

**HOW often should I take inventory**? Get into the habit of recording new purchases and revisit the list each year.

**GET STARTED** with a simple inventory list. Home inventory apps are also available in iOs and Android formats (Sortly, Memento Database, Nest Egg, Magic Home Inventory).

Number of Items	Item	Year Bought	Cost
