

Be Cyber Ready.

Protect Your Business Against
Cyber Threats with Cyber Liability Coverage

Take the first step. Build a stronger cyber defense.

Cyber incidents can come from many directions, including data breaches, ransomware, phishing, business email compromise, and other digital threats. Cyber Liability coverage is designed to help your business respond and recover from privacy incidents, regulatory challenges, and covered cyber events with access to specialized resources and support. Because the costs of a cyber incident can add up quickly, having the right coverage in place can make all the difference.

Cyber Threat Prevention Starts Here⁽¹⁾

RESPOND FASTER

Data Response Services

Expert breach response services to help investigate, notify affected individuals, and manage the aftermath of a data privacy incident.

PROTECT SENSITIVE DATA

Privacy Liability

Coverage for claims arising from the unauthorized access, loss, or disclosure of personal information resulting from a covered privacy event.

NAVIGATE REGULATORY CHALLENGES

Regulatory Defense & Penalties

Helps cover defense costs and certain regulatory penalties arising from covered investigations following a privacy event.

SUPPORT FOR PAYMENT CARD INCIDENTS

PCI Fines, Expenses & Costs (PLUS Coverage)

Protection for certain PCI assessments, fines, penalties, reimbursements, and related expenses resulting from a covered payment card data incident and alleged PCI DSS non-compliance.

PROTECTION BEYOND YOUR ORGANIZATION

Information Security Liability (PLUS Coverage)

Coverage for claims alleging that a failure of your computer security caused harm to third parties, including transmission of malicious code or disruption of third-party systems.
